

DR. KIRAN AVHAD

Senior Scientific Advisor – Fertilizer Formulation & R&D

A leading scientist in fertilizer chemistry and sustainable molecule development, Dr. Avhad combines academic excellence from India's top institutions with industry leadership in R&D and formulation.

QUALIFICATIONS:

- Doctor of Philosophy (Ph.D.) in Chemistry – IIT Bombay & ICT Mumbai
- Research Collaborator – National Fertilizers Ltd.
- Specialization in industrial-scale synthesis of high-performance, eco-friendly fertilizer molecules

EXPERIENCE & ACHIEVEMENTS:

- 10+ years in fertilizer formulation, synthesis, and process optimization
- Led development of cost-efficient, high-yield fertilizer formulations used in large-scale agricultural production
- Expertise in eco-friendly molecule innovation aligned with global climate and soil restoration goals
- Proven record in technology transfer from lab-scale innovation to industrial manufacturing
- Worked extensively with government research institutions and public sector fertilizer enterprises

CORE COMPETENCIES:

- Advanced fertilizer formulation & bio-organic integration
- Patent-driven R&D leadership
- Indian & global agrochemical compliance expertise
- Industry partnership development and product commercialization
